NOTE: ONS has issued further revised Mid-Year Population Estimates for Manchester for 2001 and 2002 of 422,900 and 428,500 respectively. ONS will not be revising the 2001 Census data, however, and the ONS figures in this factsheet are based on the 2001 Census population for the City of Manchester of 392,800, which will affect their accuracy, particularly at small area level.

The data in this fact sheet is based on best fit of 2001 Output Areas to form the new 2004 ward boundaries. Therefore, the data is not comparable to 1991 Census ward level data, which was based on Enumeration Districts larger than Output Areas.
